

# Leather Wranglers Inc.

Round Knives, Trim Knives, & Skivers

### **Blade material:**

- Crucible S35VN → high carbon stainless steel with vanadium for increased edge retention
- Heat-treated to a Rockwell hardness of Rc59-61 → resulting in a durable, long-lasting edge that is easy to sharpen

### **Handle:**

- Ergonomically designed
- Decorative Mosaic, Stainless Steel, or Brass pins
- Standard model made of durable Dymondwood → 7 Dymondwood styles

### **Unique features:**

- Ergonomically designed handle → better fit, greater comfort, more control
- Pull cut blade edge on the bottom of the Round knife → extra leverage
- Ribbed (Jimping) or smooth thumb rest → more stability and control

### **Customize options:**

- Blade configuration/shape can be customized
- Laser engrave initials for a personalized touch and the perfect gift
- Custom handle scales made of various stabilized wood (Desert Ironwood, Bubinga, Stabilized Buckeye Burl, Maple, Redwood, Antler and Horn, etc.)
